

Assignment JC3

Handong Honor Code

- It is your responsibility to understand and adhere to the Handong Honor Code.
- Unauthorized copying of coding assignments, homework, or creative work will result in a failing grade (F) for both the individual who copies and the individual who shares the work.

IMPORTANT NOTES

You will be asked to take a screenshot for each task. When taking the screenshots, there are a couple of important points to keep in mind:

1. Ensure to include the entire screen in the capture, not just the relevant section. This is to ensure that we can verify the context of the screenshot and confirm that it was taken by you.
2. You will be provided with an example of how the screenshot should look like for each task. Please follow the format shown in the examples when taking your screenshots, especially if there is a *red box* or *red arrow* highlighting a specific area. The red box or arrow is meant to indicate the specific section that we want you to focus on, but the entire screen should be visible in the screenshot.

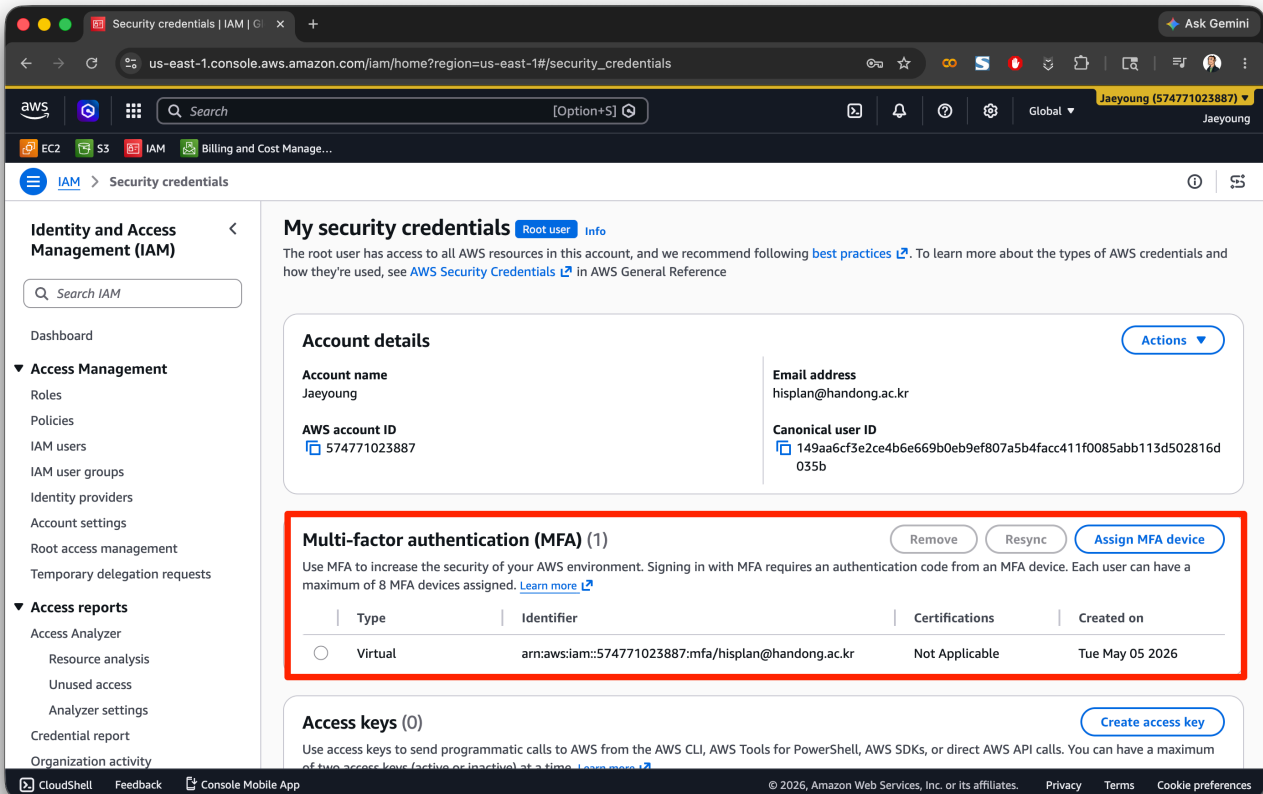

1. Create a Free-tier AWS Account

1. Create a free-tier AWS account.
2. Take a screenshot of the AWS Management Console homepage after logging in, showing your account name, the credit balance, and the number of days remaining for the free tier. Save the screenshot as **free-plan.png**.

2. Enable MFA for Your AWS Account

1. Enable Multi-Factor Authentication (MFA) for your AWS account.
2. Take a screenshot of the MFA device configuration page showing that MFA is enabled for your account. Save the screenshot as **MFA.png**.

Submission

When submitting, please package all the files into a single ZIP archive named **학번.zip** and submit it.

Example of submission format:

```
22316316.zip
├── free-plan.png
└── MFA.png
```
